Dusters

The best equipment to fight agricultural and urban pests, allowing a safe and efficient application with cost and time saving.

Knapsack duster in tobacco plantation

Knapsack duster in chicken coops

Light duster *Mata Formiga*[®] 1000 formicide application

Knapsack Duster S4 - Capacity 8kg*

The most efficient and cheapest way to fight agricultural pests in chicken coops or in crops where powder formulations are used. The S4 serie introduces the following improvements for more durability and better performance:

- 1- Ergonomic lever;
- 2- Thread - type powder feeder with nylon sweepers to ensure uniform dosage;
- 3- Five powder output settings;
- 4- More powerful fan - great output with minimum effort;
- 5- Transmission box with permanent lubrication.

Code. 411-02

Light Duster - Mata Formiga® 1000 Capacity 1kg*

The safest and most efficient option for powder formicide application, to fight leaf-cutting ants, termites and also to the prior treatment of holes for transplanting seedlings, besides other users.

The most versatile of the market with:

- 1- Translucent high density polyethylene tank, 1kg* capacity;
- 2- Large inlet for easy filling;
- 3- Folding footrest (easy to use);
- 4- A 75cm discharge tube made of flexible PVC;
- 5- New polypropylene plastic cylinder, highly resistant to chemical products and impacts, ensuring greater durability.

- Super bushing for high performance.
- Tested and approved by the Biological Institute of São Paulo.
- 0,5g* flow per pumping (stroke).

Code. 422-10

Light Duster - Mata Formiga® 2000 Capacity 2kg*

A bigger tank which reduces the number of times to fill up with chemical. A great flow, which considerably reduces physical and pumping effort to apply the product.

- 1- Translucent high density polyethylene tank, 2kg* capacity;
- 2- Independent tank cap for easy filling;
- 3- Resistant foot rest incorporated to the tank: great firmness;
- 4- A 95cm discharge tube made of flexible PVC;
- 5- New polypropylene plastic cylinder, highly resistant to chemical products and impacts, ensuring greater durability.

- 1g* flow per pumping.

Code. 422-20
