MANUAL GRANULE APPLICATOR

code. 472-00

Unique equipment to inject accurate and precisely targeted doses of fertilisers, insecticides and herbicides up to 5cm into the soil.

Banana plantations

Coffee plantations

Citrus plantations

Manual Granule Applicator

With the Guarany granule applicator you have: safety, economy and speed of application.

- 1 Measures and injects 5 cm into the soil accurate dosages (between 1,5 and 12g) of granular products.
 - Avoids manual contact with the chemical product by the operator and environmental contamination.
 - Avoids product waste.
- 2 High-resistance accurate mechanism with manual regulation.
- 3 Light equipment with backpack tank for 6 kg of product, greatly reducing operator fatigue.
- 4 Padded straps that do not absorb the product.

- Developed to preserve the environment, the new Guarany Granule Applicator allows the product's application without waste, avoiding manual contact and contamination of humans, animals and the environment.

- Ideal for insecticides, fungicides and granular fertilizers application in small and mid-sized properties, for the control of nematodes in the cultivation of coffee, banana, citrus and others.

Examples of some applicable granular formulations:

- Baysiston® - Bayer
- Temik® - Aventis
- Lorsban® - Dow Agro-sciences
- Furadan® - FMC
- Granutox® - Counter® - Cyanamid
- Alto GR® - Alto Mix® - Novartis
